Mayor

CITY OF LAUREL OFFICE OF THE MAYOR

8103 Sandy Spring Road, Laurel, MD 20707-2502
Phone: 301-725-5300 ext. 2124 • Fax: 301-725-6831

Email: laurelmayor@laurel.md.us
Twitter: @LaurelMayor
Website: www.cityoflaurel.org

To the Citizens of Laurel:

While we continue coping with the Public Health Emergency, COVID-19, I want to thank the community for all of your support and efforts to stop the spread of the virus. I encourage everyone who isn't vaccinated to take the shot and all those that are vaccinated, to get the booster shots as soon as they're eligible.

The Mayor and City Council are very pleased that you chose Laurel as your hometown and we hope to demonstrate to you that you made the best choice. Whether you have lived in the City a long time, or are a recent arrival, we hope that you know your residency is very much appreciated. As Mayor, and on behalf of the Council members we are very happy you are here and look forward to serving you and your family.

Remember to sign up for the MyLaurelMD mobile app in the App Store to quickly and easily report issues, make requests directly to City departments, access information on prominent events in Laurel and quickly call common City phone numbers and more!

Even with the Public Health Emergency, the City of Laurel still has a lot to offer: an excellent location mid-way between Baltimore and Washington, excellent schools and opportunities to access wonderful higher educational institutions, beautiful parks, paths and bike trails, and retail and dining choices for all preferences. Development continues and our infrastructure and service levels rise to accommodate the needs of our citizens. We have awesome programs and provide the best in resident services every single day. Laurel truly is a great place to live, work, and play.

The City of Laurel prides itself on its continuous release of information to its residents. In addition to the City's website, www.cityoflaurel.org, the City also releases information on Facebook and Twitter, and several other social media platforms. Meetings with your elected officials may be scheduled by calling their offices at 301-725-5300.

The City of Laurel has many volunteer opportunities for all ages. Adults are encouraged to review the many Boards, Commissions, and Advisory Committees to determine if there is an area you would like to serve. There are also many programs, recreational and service oriented, for volunteers. Community Service hours are also available for young people who need to meet school requirements. To learn more about the many volunteer service areas available, please visit the website or call the Community Services Officer at 301-725-5300, Ext. 2109.

If you're already a part of our community, thank you. If you're considering relocating your home or business to Laurel – or simply thinking about a visit – please do. You won't be disappointed! Laurel has a lot to offer and you've found the place where you can be involved in our efforts to maintain and enhance Laurel as the great City it is.

I am honored to be Laurel's Mayor, and very happy to be of service to you. Please feel free to contact my office if I may be of assistance.

Sincerely,

Craig A. Moe, Mayor

Welcome to the NEW 2022 City of Laurel Services Calendar

We have a new look, new information, volunteer opportunities, AND have kept all the important information you are used to! Collection day maps, how to prepare your items for collections, special event days and much more . . .

As part of the City's commitment to creating a sustainable community, the focus this year is on "**GREEN LIVING**" and taking the guess work out of what green living is.

What does it mean to be green?

Recycling is one part of reducing our impact on the environment. Whether you are reducing your waste, your water usage or your buying habits, a little effort goes a long way.

REDUCE: The first step to being eco-friendly is to reduce – sounds easy right: Some ways to think about reducing:

- Reduce **energy** consumption by taking shorter showers.
- Reduce **waste** by not buying single-use plastics (plates, bowls, cups, water bottles).
- Bring **reusable bags** to the grocery store.
- **Ask yourself is this purchase essential?** Have you thought about a neighborhood share for large items like electric/ battery-powered lawn mowers?

RECYCLE: Sometimes producing waste is inevitable – recycling is the process of turning waste into new materials or objects.

- **Have you considered joining the curbside food waste collection?** The City's composting program takes your food waste and certain yard debris and creates **ORGANIC** compost!
- **Do you recycle right or are you “wish cycling”** – refer to Recycle Coach to get the latest on what and where you can safely recycle many household items.
- **Participate in the City's bi-annual free electronics recycling/paper shredding/ EPS recycling events.**

Here are some ways you can make a difference:

REUSE: Finding new uses for old items helps save resources and energy.

Some ideas:

- Purchase a **reusable water bottle** instead of using single-use plastic bottles.
- Cut the top off of an old soda bottle and hang it from a tree with bird seed for an **easy bird feeder**.
- Use **reusable bags** for gift giving.
- Pop your **used tea bags** in the fridge then place on your eyes for a natural eye de-puffer.

REPURPOSE: Perhaps the most creative of the four R's is to repurpose by taking a product you don't use or haven't used in a while and giving it a new life somewhere else. Here are a few of our favorite ways to repurpose items commonly thrown away that could be used for another job:

- **Repurpose with a purpose!** Organizations such as GreenDrop will collect gently used items from your home and repurpose them to support local charities.
- **Instead of throwing away an old t-shirt:** Cut it up into squares or rectangles and have new cleaning rags.
- Empty plastic milk cartons can become a **DIY watering can** by just poking holes in the cap.
- **Reinvent your old CDs** into coaster for your coffee table.

What's New in Laurel?

→ Monday Yard Debris is Moving to May

Yard debris is picked up on Wednesdays year-round, however in the Spring the City offers Monday pickups. These Monday pickups will be moving from April to May starting in 2022!

→ Mattresses and Box Springs Must Be Bagged

In October 2021, the City began requiring all mattresses and box springs set out for bulky item pick up to be placed in a sealed plastic mattress bag. Bags can be purchased from most big box stores.

→ Organics Composting

The City of Laurel has expanded the Organics Composting program for recycling organic materials like food scraps and can accommodate many more new members! Contact the Department of Public Works for information on how to join.

→ Plastic Bag Ban

Stock up on those canvas shopping bags! Starting January 1, 2022 business establishments in the City of Laurel will no longer be allowed to provide single-use disposable plastic bags.

→ EPS (Styrofoam) Recycling

EPS - recycle your EPS products! The City promotes the ban on food service containers, but certain EPS items will be around for a while. Recycle your EPS and turn it into something beneficial. Contact Public Works on how to recycle your EPS products.

CURBSIDE COLLECTION

TO THE
CURB BY
7 a.m.

Your refuse, recycling and composting containers must be set out no later than 7 a.m. on your scheduled collection day and no earlier than 7:30 p.m. the night before.

Please make sure that all bin lids are fully closed.

Recycling

Need a new bin or repairs? E-mail: DPW@laurel.md.us

- Put items in LOOSE and not bagged
- Empty and rinse all containers
- NO plastic bags or Styrofoam
- NO beverage cups
- Remove plastic windows from pasta and tissue boxes
- NO used tissues or paper towels

Note: CFL and household batteries need to be bagged and placed NEXT to green toter.

Food Waste/Composting

- Use certified compostable bags ONLY or 100% recycled paper bags
- Meat (including bones) and shellfish (including shells) are acceptable
- NO animal feces
- NO used paper towels with chemical cleaners
- Animal hair and dryer lint is acceptable

- Approved compostable table wear
- Leftover and spoiled food

Refuse

ALL refuse MUST be containerized

Items not accepted with curbside refuse collection

- Furniture and appliances
- Construction and renovation debris
- All non-organic materials regardless of size!
- Yard debris (schedule a pickup)
- Recyclables
- Hazardous Waste

Bulky Items

Items not accepted with regular household refuse can be collected during residential special collection days.

Monday is the deadline to schedule a Wednesday collection. Call DPW at **301-725-0088** or e-mail: DPW@Laurel.md.us

- **Oversize:** Box springs, car seats, furniture, lamps, luggage, toilets, mattresses, carpeting, etc.
- **Metal:** Appliances, barbecues (no propane tanks), bed frames, bicycles, water heaters, etc.
- **Construction debris must be in a 95-gallon toter with a lift bar.**
- All gas tanks must be removed from garden tools and grills.

A base fee of \$10 is charged per pickup. An additional fee, typically from \$5 - \$25 per items is charged for certain bulk items and electronics.

Container Recycling

For curbside collection days,
please see page 17 or visit CityofLaurel.org

FREE Christmas Tree-Cycling

You can place your Christmas tree at the curb by 7:00 a.m. every Wednesday throughout January for recycling.

Your tree will be tree-cycled into a variety of new products, like mulch, compost, or animal bedding.

Remember to:

- Remove all decorations, lights, wire, tree skirts, stands and nails.
- **DON'T use fake snow** on your tree; your tree can't be recycled.
- Use an old sheet to take your tree outside and avoid using a plastic tree bag.
- Remove the old sheet (or the plastic tree bag), **DO NOT** leave at the curbside.
- Bring your tree to the curbside by 7:00 a.m., only on the Wednesday morning.

Green Resolutions

An easy way to transition to a more sustainable lifestyle is by making one small change at a time. Try swapping out single-use items for reusable versions.

Dryer Sheets – Instead of dryer sheets, you can purchase wool dryer balls which eliminate static and reduce dry time by up to 25 minutes. You can even add a drop of essential oil if you still want the benefit of scented laundry.

Napkins/Paper Towels – Invest in a set of reusable cloth napkins and a set of dish towels. During the week as they are soiled, you can throw them in with any laundry you have.

Straws – If you can't break the straw habit, there are some quality reusable straws on the market that are dishwasher safe. Ones with silicone tops are a great choice, and some come with carrying cases to take on the go.

Give your tree a second chance...
RECYCLE!

Winter Operations Program

Snow Emergency Clearing Routes:

Please be advised that a copy of the Snow Emergency Clearing Routes map is available on page 18 and on the City's website www.cityoflaurel.org. The City's Snow Emergency Plan goes into effect whenever a Snow Emergency is declared for P.G. County or the Mayor. Snow Emergencies are announced on most local radio and TV stations, Laurel Cable Network (Channel 71 on Comcast, Channel 12 on FiOS) and on the City's website.

Clear your Snow Reminder:

Property owners are reminded about the sidewalk clearing by-law and your responsibility to ensure that sidewalks have been cleared within 24 hours after the completion of a winter event.

We thank you in advance for your cooperation and appreciate everyone's efforts in helping to keep the sidewalks clear and safe for pedestrians. **Please DO NOT throw snow back into the street.**

Reminder to Residents:

The public is encouraged to park in driveways and garages whenever possible during winter weather. During a Snow Emergency on-street parking on Snow Emergency Routes is restricted to the ODD side of the street. **Remember ODD is OK.** If your car is towed, call Laurel Police Department at 301-498-0092.

Public Works is staffed during all snow emergencies, should you have any questions about the Snow Emergency Plan; please call Public Works at **301-725-0088** (TTY/Text users call via Maryland Relay), you may also use the City's **MyLaurelMD** mobile app or e-mail Public Works at **dpw@laurel.md.us**.

Yard Debris Collection

Bulky Item Collection

Other items collected during the event:

GreenDrop for Lightly Used Home Goods

The GreenDrop charity will have a vehicle on site to collect lightly used home goods. All items donated during this event will benefit one of three charities supported by GreenDrop – Purple Heart, American Red Cross and National Federation of the Blind. Receipts for charitable donation deductions for your taxes will be available. A full list of acceptable and unacceptable items can be found here: www.gogreendrop.com.

Drop-Off for EPS & Styrofoam

While we all would love to remove all polystyrene from the waste stream – sometimes that is impossible, but with recycling as an alternative – at least we can make something beneficial!

Bring your Styrofoam packaging to the event and EPS Industry Alliance will collect and recycle the products into things such as surfboards, picture frames, construction material, and new packaging.

Paper Shredding

Chesapeake Paper Systems will also be on site with their shredding truck to shred your documents safely. You can drop your documents off or stand by and watch them get put into the shredder truck! The shredding truck will accept old X-rays and other film, however it does not get shredded on site. Please make sure no non-paper items are mixed in with your documents, such as plastic floppy disks. Residents are limited to five boxes per trip. Residents and businesses are welcomed to make multiple return trips to drop off additional paper for shredding.

Electronics & Paper Shredding Event

ELECTRONICS DON'T BELONG IN A LANDFILL

Public Works collects unwanted electronics curbside for a fee and at NO COST during our bi-annual events.

Yard Debris Collection

Bulky Item Collection

Yard Waste is collected year-round at curbside on the days indicated throughout this calendar.

Acceptable Containers:

Place weeds, mulch, plant trimmings and leaves in paper yard bags or a rigid open-top reuseable container. Bundle branches as shown below.

**No plastic bags
will be accepted!**

These items should not be placed with Yard Waste:

Kitchen scraps, rocks, dirt, sod, tree stumps, larger branches, flower pots/trays, painted or treated wood and animal droppings.

Recycle Your Pots & Trays!

Place empty containers with a 2, 5 or 6 inside the recycling symbol on the bottom in your Green bin or cart.

Remember to schedule your yard debris collection before the Monday deadline.

Yard Debris Collection

Bulky Item Collection

Green- scaping Your Lawn & Garden

American homeowners spend hundreds of hours a year tending to their yards, but it can produce huge amounts of waste.

By following a few simple waste reduction practices, you can not only improve your garden, but also help the environment by reducing landfill waste and the gases they produce that are associated with climate change.

You can reduce the environmental impacts of landscaping by properly grasscycling, mulching, and composting!

Grasscycling

If you mow your lawn, leave grass clippings where they fall and allow them to decompose. This fosters healthier grass by returning nutrients to your yard.

Mulching

Make mulch from chipped or shredded wood or dried leaves. It prevents weed growth, helps to retain water, regulates soil temperature and adds nutrients.

Rain Barrels

Residents can use rain barrels to collect water for use in their gardens. This is a great way to conserve water and helps protect our rivers and streams from runoff pollution.

Xeriscaping

It is a technique that involves designing lawns and gardens to consider the natural landscape of a region. By using native plants and landscape designs you can optimize your garden for local conditions, reduce water use and soil erosion, lower maintenance costs, and preserve natural resources.

Composting

The City offers curb-side organics pick-ups for recycling food waste and other organic materials. Contact the Dept. of Public Works to join!

Recycling Matters

Recycling has both short-term and long-term benefits. Think of that plastic bottle, which can take thousands of years to break down when disposed of in a landfill. When you recycle, you are making a positive impact on the world in which you live today and for future generations in several ways.

Here's why recycling remains important:

- **Protects Natural Resources** – Making products from recycled materials instead of virgin materials reduces the need to harvest, drill or mine for new raw material, which can affect local environments.
- **Saves Energy** – It usually takes less energy to make recycled products than new ones. For example, recycling an aluminum can takes 95% less energy than creating a new one.
- **Protects Clean Air and Water** – Making products from recycled materials generally creates less pollution than making new products.
- **Reduces GHG Emissions** – In 2018 the EPA reported that about 94 million tons of MSW in the U.S. were recycled and composted, saving totals over 193 MMTCO₂E. This is comparable to the emissions that could be reduced from taking almost 42 million cars off the road in a year.*

- **Saves Landfill Space** – Recycling diverts items from landfills or incinerators and extends the landfill life-span.
- **Creates Jobs** – EPA released significant findings on the economic benefits of the recycling industry with an update to the job industry. The findings showed that in a single year, recycling and reuse activities in the United States accounted for: 681,000 jobs \$37.8 billion in wages; and \$5.5 billion in tax revenues. This equates to 1.17 jobs per 1,000 tons of material recycled.**

You Can **FIGHT** Climate Change

WHAT IS IT?

Climate change includes changes in temperature, shifts in rainfall patterns, and more frequent extreme weather events like heavy spring rains, drought, ice storms and heat waves. Greenhouse gases from the burning of fossil fuels in vehicles, heat, electricity production, and industry are all contributing to climate change. In 2019, U.S. greenhouse gas emissions totaled 6,558 million metric tons (14.5 trillion pounds) of carbon dioxide equivalents.*

* Data for this indicator came from EPA's Inventory of U.S. Greenhouse Gas Emissions and Sinks: 1990–2019.

HOW DOES IT AFFECT US?

According to NASA – Global climate change has already had observable effects on the environment. Glaciers have shrunk, ice on rivers and lakes is breaking up earlier, plant and animal ranges have shifted and trees are flowering sooner. Global climate change is happening now, we are experiencing loss of sea ice, accelerated sea level rising, more extreme weather events and more intense heat waves.

For more information about what you can do to lower your carbon footprint – visit the City's Green Living web page – www.cityoflaurel.org/green.

WHAT CAN WE DO?

Simple actions all add up to real and positive changes. We can all make everyday choices that save energy and money and shrink our environmental footprint.

Let's get started!

USE PUBLIC TRANSPORTATION

SWITCH TO COMPACT FLUORESCENT BULBS

HANG YOUR CLOTHES TO DRY

LOWER YOUR THERMOSTAT AT NIGHT

TAKE YOUR BIKE INSTEAD OF YOUR CAR

TURN OFF THE LIGHTS WHEN YOU LEAVE

UNPLUG YOUR CELL PHONE CHARGER

JOIN THE CITY'S COMPOSTING PROGRAM

Leave Those Leaves

Mulched or shredded leaves are an excellent source of nutrients and protection for your lawn and garden. Mulch helps retain moisture by reducing soil's exposure to sun and slowing evaporation. It chokes out weeds, too.

For best results, shred leaves when they are dry.

Push your mower slowly over areas where there are lots of leaves, you may have to run over them twice. Only a sharp mower blade is necessary, but a mulching blade, available from your local hardware or garden store, can make the job even easier.

Boost nutrients and moisture-retaining capability and choke out weeds by:

- Spreading leaves over your lawn to quickly decompose.
- Digging them directly into your garden.

In fall, spread leaf mulch on gardens and around shrubs and trees as winter protection.

Leave some space around shrubs and trees when mulching. Mulch is most effective when it is 2 to 3 inches (6-7 cm) deep.

Don't forget to compost any leftovers.

Request a Pumpkin Pickup

Schedule a pumpkin pickup for Wednesday, November 2nd by contacting Public Works at 301-725-0088 or DPW@laurel.md.us by November 1st.

Carved, whole, or painted pumpkins (water-based paint only) and gourds are acceptable for this pickup. Please be sure to remove all candles, fake web and plastic decorations. Pumpkins and gourds should be placed curbside by 7:00 a.m. on Wednesday morning.

Smart Giving

Tis the Season to Reduce, Reuse and Recycle.

Here are a few SMART SHOPPING suggestions:

- **Smart gift wrap** – Saving and reusing gift bags from year to year is an easy way to reduce waste during the holidays. You can also save tissue paper. With a quick pass of an iron to remove wrinkles, the paper will look like new.
- If you gift wrap presents, **using a recyclable paper** will allow you to divert it from the waste stream and into the recycle or compost bin.
- **Gift thoughtfully** – Consider gifting 'experiences' or handmade gifts. Often these are the most enjoyable gifts to receive because extra thought and time goes into them.
- **Shipping and packaging** – Some online retailers allow shoppers to select their preference for recyclable packaging. In addition, you can often choose to group shipping dates together so items use fewer boxes and fuel to arrive at your home.
- **Shop local** – Shopping small and local businesses in your area keeps the money in your community and by buying local, the products have a smaller carbon footprint.
- Buy items made from **recycled materials**.

Ring in the New Year ...

with smart choices that save money, reduce waste, and both conserve energy and water. You'll create a more positive future for our shared environment! An easy way to transition to a more sustainable lifestyle is by making one small change at a time.

- Use reusable shopping bags or bins when shopping.
- Say no to coffee cups and bottled water; take a reusable mug or bottle when going out.
- Choose purchases wisely: buy local products, and those with less packaging.
- Reduce household waste: recycle, compost and donate for re-use.
- Investigate composting and natural yard care so you'll be ready for a green spring.
- Install CFL bulbs, efficient shower heads, and a programmable thermostat set to a cooler temperature at night and when you are out.
- Dispose appropriately of batteries, paint, old medications, metals and other non-standard waste to keep this material out of landfills.
- Instead of dryer sheets, you can purchase wool dryer balls which eliminate static and reduce dry time by up to 25 minutes. You can even add a drop of essential oil if you still want the benefit of scented laundry.
- If you can't break the straw habit, there are some quality reusable straws on the market that are dishwasher safe. Pay homage to your childhood and use paper straws!
- Commit to take public transit, carpool or walk to work or school at least one day a week – or more!
