ECD Pre-Application Meeting

Before applying for certain zoning processes or commissions, the Department asks that all potential applicants attend a pre-application meeting with staff. At the meeting, staff will discuss the scope of the project in detail with the applicant and provide information on the application and board meeting processes.

To ensure a complete and comprehensive application, staff recommends that the applicant provide the following at the pre-Application meeting:

- Business proposal
- Rough floor plans and site maps
- Preliminary renderings, sketches, or color photographs
